

## Security Reminder: Beware of Scam Phone Calls 安全提醒：提防電話詐騙

We would like to bring to your attention a rise in fraudulent activities involving phone scams, where scammers impersonate staff and doctors from private hospitals in an attempt to entice citizens to donate money or deceive people into providing personal information. Hong Kong Adventist Hospital – Tsuen Wan hereby declares that **all communications from our hospital are conducted through official channels**. We urge the public to exercise vigilance and guard against falling prey to these scams.

The public should remain vigilant and verify the identity of a caller when receiving suspicious phone calls, and should not disclose any personal information to others arbitrarily. If you have any doubts, please feel free to contact us directly.

Anyone suspecting a scam should immediately report it to the Police.
