4 Introduction 簡介

The prevalence of chronic diseases such as cancer, diabetes, high blood pressure, and obesity continues to increase in Hong Kong, with most cases closely associated with poor lifestyle and eating habits. 癌症、糖尿病、高血壓和癰肥等慢性疾病在香港愈趨普遍，與不良的生活和飲食習慣有莫大關係。有見及此，香港港安醫院—司徒拔道及荃灣於30多年前成立健康生活促進中心，致力推廣「全人健康」生活模式，為病人和公眾提供持續性的保健服務。

由專業團隊包括醫生、註冊營養師、註冊護士和健康教育導師，通過素食烹飪班和各種多元化的互動健康教育活動和計劃，幫助參加者改善身體狀況，享受美好的人生。

4 The NEWSTART® Program 「新起點」健康實踐計劃

The NEWSTART® program was developed by the Weimar Institute in California, USA. By introducing healthy lifestyle changes, the program helps patients prevent, treat, and even reverse chronic diseases such as cardiovascular diseases, diabetes, hypertension, obesity, and cancer. "NEWSTART®" is an acronym for the program's eight lifestyle principles:

- Nutrition** - adopting a whole food, plant-based diet
- Exercise** - enhancing blood circulation and physical fitness
- Water** - purifying the blood and promoting detoxification
- Sunlight** - strengthening the bones and relieving depression
- Temperance** - abstaining from harmful substances and behavior
- Air** - activating body cells and improving physical function
- Rest** - balancing work and rest to repair damaged cells
- Trust in God** - knowing a trustworthy, faithful God

NEWSTART® has seen encouraging results in the United States:

- + 50% of type 2 diabetics no longer need insulin injections or medication after 18 days
- + 50% of all hypertensive patients see their blood pressure return to normal levels
- + 80% of those who suffer from diabetic neuropathy are pain-free after 18 days
- + Some participants report a 40% drop in cholesterol levels at the end of the program

「新起點」健康實踐計劃源自美國加州的威瑪學院，目的是透過重整生活模式來預防、治療、甚至逆轉某些慢性疾病，例如心血管病、糖尿病、高血壓、肥胖、癌症預防等。「新起點」的英文名字-NEWSTART代表八項健康生活的元素，分別是：

- 營養** — 以原型的植物性食物為主
- 運動** — 增進體能與血液循環
- 水份** — 淨化血液，促進毒素排出
- 陽光** — 強化骨骼、免疫力，減輕抑鬱
- 節制** — 戒除對健康有害的物質與行為
- 空氣** — 活化細胞，改善身體機能
- 休息** — 作息有時，修復受損細胞
- 信靠** — 認識一位可以隨時依靠的神

這計劃在美國取得令人鼓舞的成果：

- + 半數糖尿病患者在短短18天後，已不需要接受胰島素注射和藥物治療
- + 半數參加者的血壓下降至正常水平
- + 八成糖尿病神經病變患者在18天後，痛楚減退
- + 部份參加者於活動後，膽固醇的水平下降四成

4 Promoting a Healthy Vegetarian Diet 健康素食推廣

In recent years, vegetarianism has become more and more popular in Hong Kong. Because plant-based diets are rich in fiber, vitamins and minerals, and contain less saturated fat and cholesterol than animal-based diets, many people choose to adopt a vegetarian diet as a way to maintain their ideal weight and stay healthy. Large-scale studies have also shown that vegetarianism helps to prevent various chronic conditions such as heart disease, high blood pressure, high cholesterol, diabetes, stroke, obesity, and cancer.

Although the benefits of vegetarianism are numerous, myths and misperceptions remain. Maintaining a balanced diet is of utmost importance – an ideal vegetarian diet should include whole grains, vegetables, beans, fruits, nuts, and seeds. By choosing to consume more whole foods, we allow our bodies to absorb the most natural nutrients.

In addition to hosting lectures about healthy eating, the center also organizes a variety of vegetarian cooking classes from time to time, which offer instruction on the NEWSTART cooking method, how to choose healthy and natural ingredients, and creating delicious dishes with less salt and no refined oil.

近年，素食風氣在香港愈趨流行，植物性飲食含有豐富的纖維素、維他命和礦物質，而且飽和脂肪和膽固醇的含量較動物性飲食少。所以有不少人都希望透過素食維持理想體重和身體健康。除此之外，有很多大型研究指出，素食能有效預防多種慢性疾病，例如心臟病、高血壓、高血脂、糖尿病、中風、肥胖和癌症等。

雖然素食的好處多不勝數，但坊間仍存有不少迷思和飲食謬誤，所以要吃得均衡，才能吃得最有「營」！理想的素食餐盤應包括全穀物、蔬菜、豆類、水果、堅果類和種子，多選擇進食原型食物，以吸取最天然的營養素。

除了健康飲食講座，本中心不定期舉辦不同類型的素食烹飪班，教您如何用「新起點」烹調方式，選用健康又天然的食材，以少鹽、零精製油的方式製作美味菜式。
